Brothers,

Our council is again conducting the “Baby Bottle Campaign’ to raise funds to support pro-life organizations in the local community. The money collected will be donated directly to the McGivney Center for Hope and Healing (Aid for Women Homes in Chicago) and TLC Pregnancy Services.

The Mission of the [McGivney Centers of Hope and Healing](#) is to provide care to women in difficult situations who choose to carry their babies to term. The organization accomplishes this through the provision of grants issued to homes, centers and other aid organizations that provide transitional housing, counseling, education, spiritual nurturing and other care to both mothers and their children in need.

[TLC Pregnancy Services](#) is a ministry that provides free medical, material, emotional & spiritual support to local women facing unplanned pregnancy situations. Their mission is to encourage women and men facing unplanned pregnancies through education and outreach by providing limited medical services, material resources, emotional and spiritual support as we minister to them in the name of Jesus Christ.

Please consider donating \$5, \$10, or more for this very worthwhile cause,

Vivat Jesus!
